

Write and Solve a Division Problem

You will need: your math journal, pencil

1. Write a word problem that can be solved by dividing a 3-digit dividend by a 2-digit divisor.
2. Estimate the quotient to your problem. Explain the strategy you used to estimate.
3. Create a model of your problem using manipulatives, pictures, and/or words.
4. Solve your problem. Don't forget to show all of your work!
5. Solve your problem using a different division strategy to check for accuracy.
6. Explain your strategies.
