

Decimal Animals in Base Ten

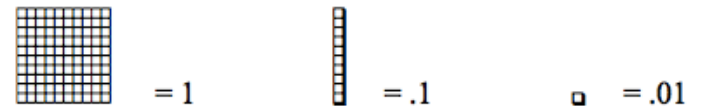

You will need: your math journal, base 10 blocks

1. Create an animal using base 10 blocks.

2. Sketch your animal representation in your math journal and record the number of wholes, tenths, and hundredths that you used.

3. Calculate the value of your animal.

4. Create another animal repeating steps 1-3.

Bonus! Find the sum of and difference in the values of your animals.
