

Guess My Decimal

You will need: a partner, 2 game boards in sheet protectors, a dry erase marker, a folder

1. Use a folder as a barrier and sit facing your partner.
2. Each partner circles five spaces with the dry erase marker.
3. Players take turns guessing one another's circled decimals.
 - If your partner correctly guesses one of your decimals, he/she gets a point and you erase that circle.
 - If your partner names a decimal that is touching one of your circled decimals you give the clue, "close."
4. A round ends when a player successfully locates 3 circled decimals. This player will get an extra two points.
5. Start a new round by erasing all circles and repeating steps 2 & 3.
6. After 5 rounds, total up each players points to see who won!
